### Description of site design

#### Evaluation of HTML Website: Plan, Design, and Build a Website

This document evaluates the main decisions made in the design and development of the HTML website titled "Plan, Design, and Build a Website". The website provides a comprehensive overview of Sheryl Sandberg's personal and professional life, focusing on leadership, advocacy, and philanthropy.

#### Structural Decisions

I organized the website's content into clear sections using semantic HTML elements, each with descriptive IDs for easy navigation. The navigation bar (<nav>) includes links and a hamburger menu, making the site mobile-friendly and easy to navigate. These choices were made to enhance the user experience.

#### Content Organization:

The main content is enclosed in a <div id="container"> for layout control. An <aside> sidebar provides additional resources like tables of contents and interesting facts. The footer includes copyright information and a contact link for easy access.

#### Content Decisions

I structured the text content with informative and engaging <h2> subheadings to ensure clarity and organization. Multimedia elements, such as relevant images with descriptive alt text, were included to provide context and accessibility. Additionally, I integrated a <video> section for dynamic content, enhancing the user experience with visual and informative media.

#### Technical Decisions

All images have descriptive alt attributes for accessibility. Semantic HTML elements are used to enhance accessibility and SEO by providing clear structure and meaning to the content. These decisions ensure the website is user-friendly and easily navigable.

#### Design Decisions

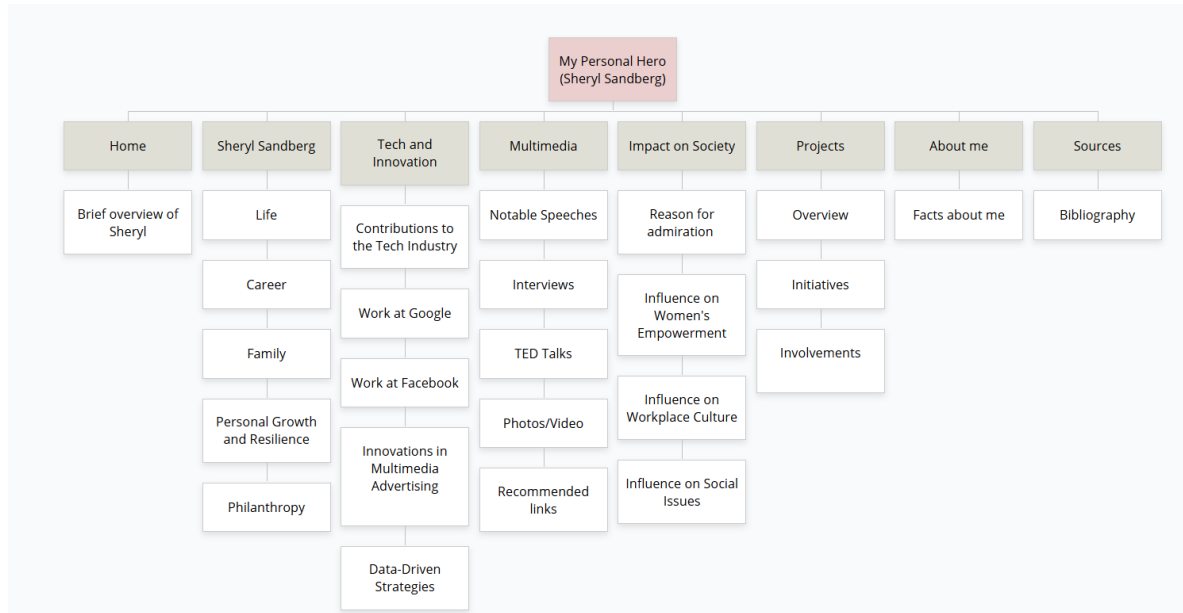

For the color scheme, I opted for a clean and minimalist look with primary colors of white and green. White serves as the background color, while green is used for headings, links, and elements to highlight and add contrast.

I chose sans-serif fonts for their readability and modern appearance.

In terms of layout, I implemented a responsive design with flexible grids and media queries to ensure compatibility across various devices. These decisions were aimed at enhancing the user experience.

## A site-map diagram

### My Personal Hero: Sheryl Sandberg

#### Home

- Brief Overview

Introduction to Sheryl Sandberg, highlighting key facts and achievements.

#### Sheryl Sandberg

- Life

Her early life, education, and personal background.

- Career

A timeline of her career milestones.

- Leadership and Advocacy

Her roles in leadership and efforts in promoting gender equality.

- Personal Growth

Stories of her resilience and personal development.

- Philanthropy

Her contributions to various causes.

#### Tech and Innovation

## Client Side Web Development

- Tech Contributions

Her impact on the tech industry and key initiatives.

### **Google**

Achievements and role at Google.

### **Facebook**

Highlights from her tenure at Facebook.

### **Multimedia**

- Speeches

Influential and inspiring speeches.

- Interviews

Significant interviews and their summaries.

- TED Talks

Links and key points from her TED Talks.

### **Impact on Society**

- Why She's My Hero

Personal reasons for admiring Sheryl Sandberg.

- Women's Empowerment

Her role in empowering women globally.

- Workplace Culture

How she has influenced workplace environments.

- Social Issues

Her contributions to various social causes.

### **Projects**

- Overview

Introduction to her projects.

- Initiatives

Key initiatives she has led.

- Involvements

# Client Side Web Development

Other significant roles and contributions.

## About Me

- Facts About Me

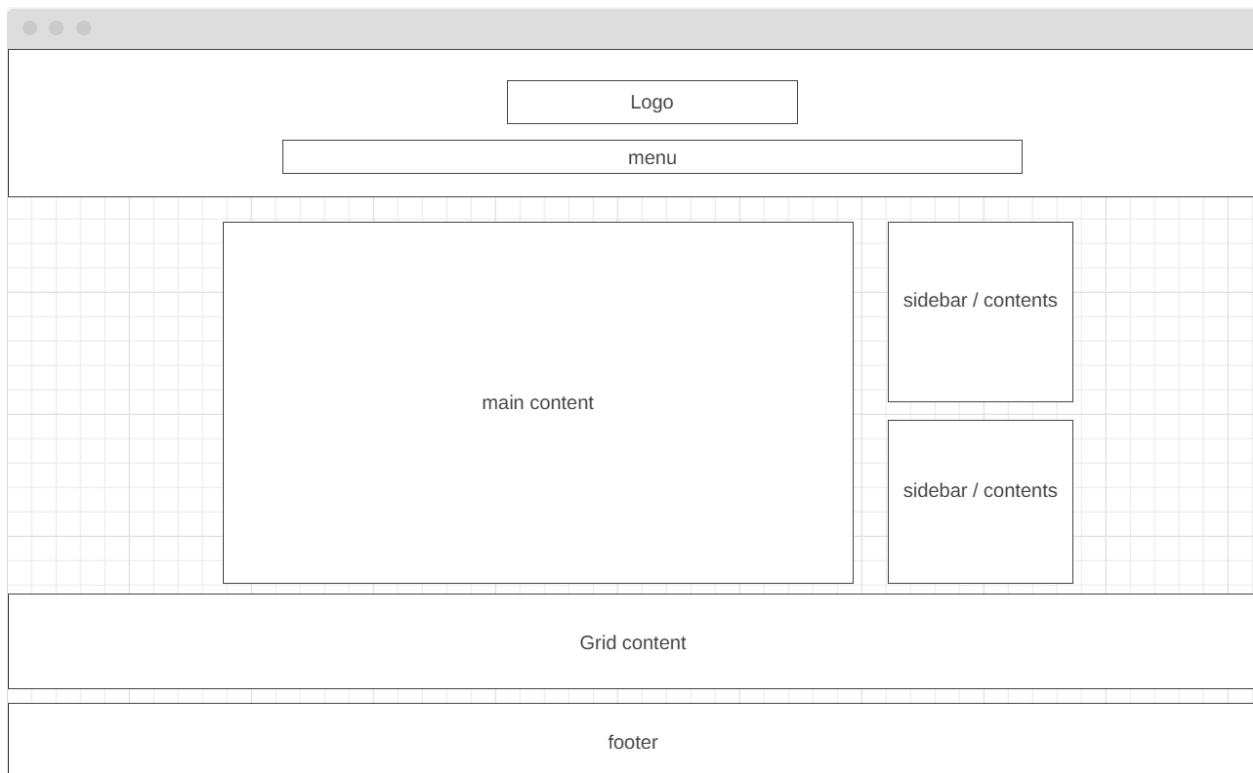

Personal information about me, interests, and connection to Sheryl Sandberg.

## Sources

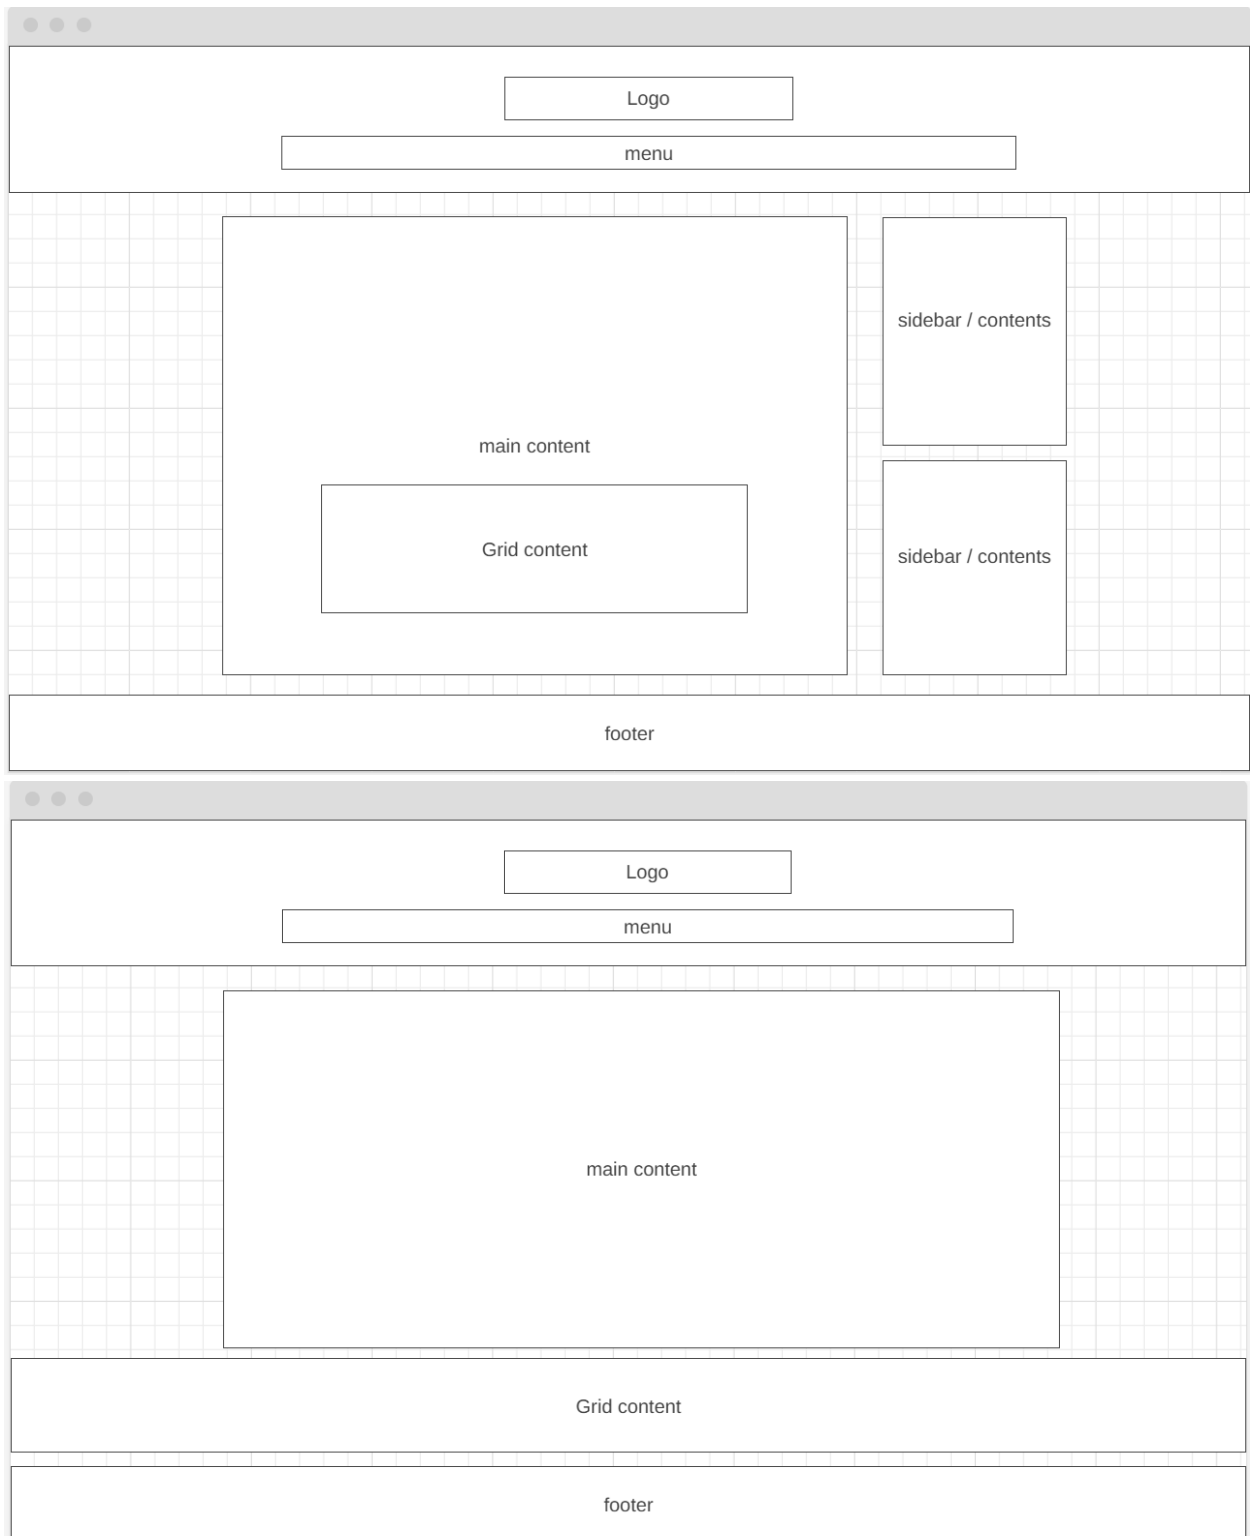

- Bibliography

A list of sources used, formatted in Harvard style.

## Research

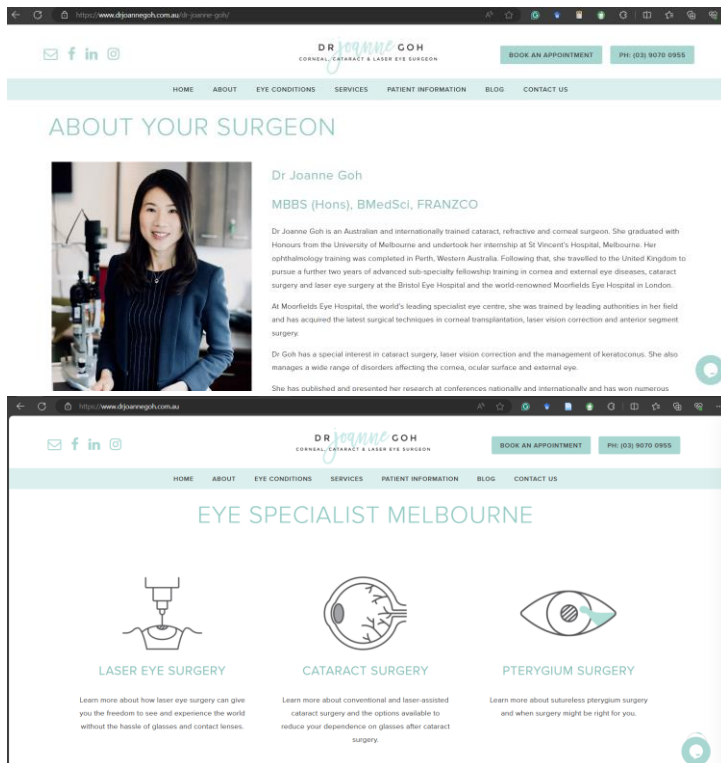

I did not have many external inspirations. I was trying to create something with my own identity.

But I found some styles that I liked and was according to I was looking for.
